

FINCA SON APARETS

Menorca

A MENORCAN PARADISE

Located in Menorca, we are a family owned organic farm, a unique paradise where all the magical elements of the island come together in over 25 breathtaking hectares of stunning Mediterranean countryside. We're committed to regenerative agriculture and holistic farming practices that reverse the negative effects of farming by helping to rebuild the soil and restore biodiversity.

WHAT WE GROW

Our farm is replete with medicinal herbs including Lemon Balm, Menorcan Chamomile, Calendula, Fennel, Peppermint, Rosemary, Lavender, Everlasting flowers...

During the season, we grow vegetables and fruits of high quality such as zucchinis, tomatoes, aubergines and melons in our organic garden.

BETWEEN LAND AND SEA

You can walk directly from your room to the sea where you can access a cave and jump from the fascinating rock formations.

The beautiful historical city of ciudadella is only 15 minutes drive from the farm.
